

It's "cheating"... but... it works!

New Cosmetic Product Makes Wrinkles Almost Invisible To The Naked Eye!

Dear Friend,

If you would like to look as much as 20 years younger... *in less than one minute*...this will be the most unbelievable (but true!) message you will ever read.

Here is why:

There is now a new cosmetic cream which uses something very much like a "magician's trick" to de-age the appearance of your skin. It's called Deception. Before I tell you the secret how it works. I want to tell you how you can test this cream on your very own skin.

Here's how you do the test: Put a little Deception on your fingertips and gently apply it onto ONLY ONE SIDE of your face. Wait about 60-seconds and then look at yourself in your bathroom mirror.

What You See Will Be Utterly Amazing!

If you have put Deception on the right side of your face... that side will look up to 20 years younger (it varies from person to person) than your left side! And, the cream will be 100% invisible! It is colorless, odorless...and... you won't even be able to feel it when you touch your skin!

How can this be? What's going on here? Is that some kind of magic?

No, it's not magic. It's science which seems like magic.

The main ingredient in Deception is made from something called "emu oil" I'll tell you about emu oil in a moment... but first... let me tell you what creates the "magic" effect.

This is the only triple refined emu oil in the world. And, an extra ingredient is added to it while it is being made into a cream. This extra ingredient is a suspension of superfine silicone dioxide nanoprisms which have been "fractionated" instead of pulverized. That means instead of turning into flakes when it is processed... it turns into...

Billions Of Microscopic Three-Dimensional Retro-reflectors!

So What?

Here's "so what." Almost nobody knows this... but... the human eye cannot see a wrinkle. What the eye sees is actually the shadow made by the wrinkle. And, since all those billions of microscopic nanoprismatic retro-reflectors

refract light, when you use Deception...

There Are No Shadows To See!

This effect will last until you wash your face and the invisible silicon dioxide is removed. And get this: Remember how I told you the main ingredient in this cosmetic cream is made from emu oil? Well, it turns out emu oil is probably the best cosmetic ingredient in the world. That's because its molecules are much smaller than the molecules in human skin. Because of this, emu oil can...

Penetrate Down Through Seven Layers Of Human Skin!

This makes it the best moisturizer in the world.

And here's more good news!

The reason you get wrinkles in the first place is, as you get older, you start losing the collagen in your skin. Can you guess what emu oil does?

It Stimulates The Regrowth Of Collagen!

Think about it: You get the

The woman in this photograph is an International, Professional model. You've probably seen her in hundreds of magazines and photographs without knowing her name. She keeps her name secret because, if people in the industry knew her true age, it would be difficult for her to get work as a model. Look closely at the photograph. She looks young enough to be a teenager getting ready for prom night. Yet, this woman has a 7-year-old daughter and her real age is somewhere in her 30's. All she will say about her age to her close friends is, "I'm dangerously close to 40." She also says, "If it weren't for this amazing new cosmetic cream, 'Deception' created by Julie Brumlik, I would lose hundreds of modeling assignments... because... there is no way I could pass myself off as a teenager." By the way... and... just in case you're interested... the above photo has NOT been airbrushed or retouched in any way whatsoever.

best of both worlds! The billions of microscopic nanoprisms (from fractionated silicon dioxide) pretty much make your wrinkles immediately invisible. And this happens at the exact same time as the emu oil is moisturizing your skin... *like it has never been moisturized before!* And, this happens at the exact same time as the emu oil is stimulating your own collagen to grow again!

All of this means your wrinkles get smaller and smaller everyday... and... if you use Deception long enough, it is possible your wrinkles will no longer exist.

"... an optical illusion... that

makes wrinkles disappear..."

For a short time, this product was available in all big department stores like Bloomingdale's, Henri Bendel, Sephora, Ulta, Rich's and many others. But, it has now been taken out of the department stores because...

It Worked So Well... Many Of The Employees Were Stealing It!

That wasn't true of every store. But, it happened often enough that Julie Brumlik, the creator of this miracle cream, (and the world's leading expert on emu oil) decided to pull it out of stores and sell it herself exclusively via the Internet.

By the way, this product is a major secret used by Hollywood stars and supermodels. You see, these people often have to look... much younger... than they really are... or else...

They Lose Their Jobs!

You should also know Deception has been raved about by almost every major woman's magazine in the U.S. Here are just a few of their comments:

"... better than BOTOX..." CHICAGO TRIBUNE.

"... a potent skin de-ager..." LONGEVITY MAGAZINE.

"...lines and creases and wrinkles will vanish instantly with "Deception." This cunning cream is embedded with nanoprisms that refract light away from wrinkles. Smooth on "Deception" and watch your lines of experience disappear. If nobody sees them any more, is that cheating?.. ALLURE.

"...the 21st century's fountain of youth is here..." BEAUTY AND FASHION MAGAZINE.

"...it's a bona fide miracle..." FLAIR MAGAZINE.

"...an optical illusion that makes wrinkles disappear..." ULTRA MAGAZINE.

"...for aging skin, it's a dream come true..." HARPER'S BAZAAR.

"...'Deception' disguises wrinkles.." STAR MAGAZINE.

"...it's emerging as the world's new cosmetic rage... studies done at Boston University have shown that emu oil may actually stimulate

cell rejuvenation and help reduce wrinkles and sagging..." VOGUE.

"...make-up artists use on Demi Moore, Goldie Hawn, Melanie Griffith, Tommie Tune and Carrie Fisher..." DAN'S PAPER (a celebrity newspaper for rich people who live in the Hamptons area of New York state.)

Anyway, this cream seems to work for everyone who uses it... and... it comes with a...
