## How To Start Your Own Mail Order Fortune In America NOW With FREE Information From The Orient!

Dear Friend:

If you would like to make a lot of money FAST in mail order - right from your own home, and do it now - here is how I've done it several times in the Orient.

And why I believe you could do the same in America with information I'll give to you.

When I say you can make money fast, I mean from point zero to as much as \$600.00 a day - every day - money in your own pocket! Right here in this letter I'll prove why I believe you could do this - and do it now!

(My own mail order discoveries bring in hundreds of thousands of dollars again and again. And now I want to send you free information to help you do the same - and do it immediately.)

Here's Proof You Can Make Money Fast.

To help you make money now in mail order, I have two free reports ready to send to you. The first report: 100 NEW FORTUNE BUILDING PRODUCTS, contains 100 fresh mail order products with 100 photographs and sources.

Here are 5 examples out of the 100 new items in your gift report. I predict will be big mail order profit winners:

1. WIRELESS TELEPHONE. Small and compact, can be carried anywhere. Dial any number - no wires - millions of these will sell fast. Inexpensive.
2. MAGIC HOT SAND. A small amount of this hot sand eliminates chemical fertilizers - bugs. Grow anything - anywhere the year around. Great customer appeal for millions of organic health food followers.
3. ELECTRO-REPELLER. Drives bugs away like crazy! Pocket size, operates 100 hours on standard 9v battery. Eliminates smelly and sticky lotions. The high frequency cannot be heard by humans. The 50 million American buyers of fishing and hunting licenses plus campers and hikers, will want this for more enjoyable trips. Big profit maker, I predict will sell as fast as you ship them.
4. SELF-LITE. Now smokers light a cigarette by brushing the cigarette along the side of the pack. Eliminates cigarette lighters. Millions will buy this fast.
5. CHARCO-FLAME. To light charcoal for outdoor bar-b-ques all you do with this new item is to sprinkle water over the charcoal - and the charcoal bursts into flame! Another item that is going to sell by the millions.

And in your first gift report: 100 NEW FORTUNE BUILDING PRODUCTS, there are

95 other products equally as good - or better. Fresh mail order products to help you start your mail order fortune now.

### Here's More Proof Why I Can Show You How To Make Money Faster In Mail Order

For several years in Japan it was my job to find profitable new products for one of America's major mail order firms in its field. From this valuable experience I learned there are few satisfactions to equal the thrill of discovering a new product first and later see hundreds of thousands of dollars as a result.

For example, once when I knew I would be in America for a visit I selected a product and wrote to consumers in the USA. During the six months while in America I took in over a thousand dollars a day - all by mail - all cash in advance. Plus I never saw a one of my customers and the neighbors had no idea of what I was doing. Now you see why I believe if you follow me you could soon be making money in mail order fast in America too.

What you have just read about making money fast in mail order may surprise you. But these are not 'wild' statements. Several times, starting with almost no capital, I've made several mail order fortunes. Right from my home, no office and no big overhead expense. Let me explain how my experience and free mail order money making information can show you how to do it too.

### Two Insider's Mail Order Secrets Are The Key!

To begin with, those of us who make big money in mail order with little, or almost no investment, realize there are two insider's secrets that account for our successes.

At this moment, let me take you behind the scenes of big mail order money making and explain these two insider's secrets, or rules, to you.

Insider's Rule Number 1. If you want to strike it rich - fast - in mail order you certainly could. Those of us in the 'know' do it all the time by getting information about new products first. You must have the first early product information because when every store in town has the product it is too late for you to get fast mail order profits. Remember, Insider's Rule Number 1: get first product information before the stores know about the product.

Insider's Rule Number 2. Two of my friends in America are self-made mail order millionaires who started from their homes and made a lot of money. Just as I've done - and as I am now encouraging you to do in this letter. A large part of our mail order success is due to Insider's Rule Number 2. Here is Insider's Rule Number 2: to make really big mail order financial killings, we get information about new products before manufacturers get the information!

Getting information before the retail stores (Rule 1) is only half our secret of success. The bigger half is getting information about new products (Rule 2) before manufacturers! Later, when the product is manufactured, insiders have first chance to make big mail order profits - and we certainly do!

Getting this advance information is not as difficult as it may seem. In fact, I am going to get it for you - and get it for you free!

Right now you may be thinking, "Well, Mr. Hall, that all sounds great. But I am not a big businessman, I have no experience in big dealings, I would not know how to start with the information or what to do with it."

My answer to you is that I understand your position very well. Because your

148

present position is the same as mine was when I first started. It is the same as my millionaire friends when they first started.

But the point is - you must make a start. And to do it safely and wisely - you start by using my proven experience to guide you. Experience that proves its value each time I build another mail order success. Actually, your own business experience, your age, your education or where you live makes no difference when you sell by mail - it is the product you sell by mail that counts.

Because of my own successful mail order experience I can find the right mail order products for you before stores know about them (Insider's Rule 1). Plus my experience can also get new product information to you months before manufacturers (Insider's Rule 2).

AND ALL OF THIS WILL BE SENT TO YOU AS A GIFT

Yes, I know what is going through your mind right now. "Why would Mr. Hall send me free information? What's the catch to all this?"

There is no 'catch'. My offer to send you my proven mail order money-making information as a gift makes good common sense when you understand my reason for making it.

And here is my only reason.

One of my successful mail order businesses is writing informative reports. Two of my new reports deal with my experience making money in mail order. The two new reports are: 100 NEW FORTUNE BUILDING PRODUCTS and INSIDER'S GUIDE TO FAST MAIL ORDER FORTUNES.

These two reports are written to sell for \$16.95 via airmail. But both of them will be sent to you FREE. All I ask you to pay is the actual international airmail postage and handling.

It makes good common sense that if I can help you make money - now - in mail order with the information in these two gift reports, you will want my future reports. Right? Of course! As I said it is only common sense when your own mail order profits start rolling in to you - with the information in your first two free reports - you will want other future reports to keep the cash coming fast - it is only basic common sense.

For example, in your first free 12,000 word report: 100 NEW FORTUNE BUILDING PRODUCTS, I show you new mail order products my experience tells me are going to be big profit winners. In addition to a photograph of each item, I include the manufacturer's name and address. You must have this first fresh product information to follow Insider's Rule Number 1 as I explained earlier.

Half of the products in 100 NEW FORTUNE BUILDING PRODUCTS are available now - no stores know about them (Insider Rule Number 1). The other half of the report's products are items going into production later - no manufacturer knows about them now (Insider's Rule Number 2). When they do go into production you will have first chance to make big mail order profits...just as we insiders do!

(I am the only American member of the prestigious Hatsumei Gakkai Inventor's Association in Japan whose more than 5,000 Japanese inventors make many of the world's hottest selling mail order products. Through me you will get this early product information months before any manufacturers in either Japan or America! - Insider's Rule Number 2.)

In addition to the complete new product information in 100 NEW FORTUNE BUILDING PRODUCTS, your second gift report, INSIDER'S GUIDE TO FAST MAIL ORDER FORTUNES gives many mail order secrets responsible for my mail order success. Secrets you can put to use NOW building your own mail order success. And I want you to know the information in this second report has not been made public before - these are my own private dis-

coveries that create mail order success for me time after time - and they are now given to you in this second report.

As I've said, both of these reports are money making guides sent to you free. All you do to get them is fill out the enclosed gift request form and send it to me with the actual international airmail postage and handling. As soon as your gift request form arrives, I'll do my part to put you on the road to fast mail order profits at once. I certainly know how to do it!

But there is more for you.

In addition to the two gift reports, you are going to get free Bulletins during the next 12 months that will give you many profit suggestions. Plus information about how to know first about upwards of 1,000 (one thousand!) fresh new mail order products I believe will be the hottest USA mail order sellers. (My experience proves I pick the winners - I'll pick them for you too.)

Plus you can write to me anytime during the next year if you have a product question and I'll give you free product counseling - of course I'll be glad to help you.

Please, again let me assure you there is nothing extra for you to pay for the two valuable reports, the profit Bulletins or the product counseling. This special introductory gift offer is my common sense way of introducing you to the value of my reports, as I said earlier in this letter.

#### NOW - LET ME SEND EVERYTHING TO YOU

If you are sincere about making money - a lot of money fast as I've proven again and again can be done, then I know these two gift reports, profit Bulletins, and product counseling can help you make the RIGHT start.

You can only gain by taking advantage of this special introductory gift offer. And what you decide right now could make you a lot of money. So decide wisely for your own future by filling out the gift form and mailing it to me today. A business reply envelope is enclosed for your convenience.

Cordially,

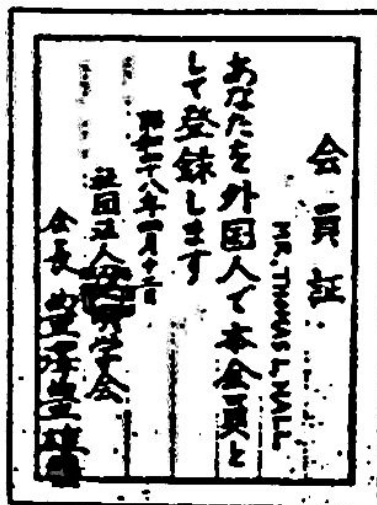

P.S. Remember, these two gift reports are valuable guides to help you start your own mail order fortune. Fresh product information PLUS many proven ways to cash in with the information. And free product counseling service for a full year...if you have a product question to help put you on the road to big money ask it! And FREE profit Bulletins. Everything based on my successful experience operating from my home with no big capital outlay. (I made my first big financial kill while I kept my former job - just as I want you to do.) Send for the two gift reports now - make a start - read what I have to tell you. You will learn more about making big money faster now in mail order than you could in years of hit and miss attempts.
